

Vitamin C Product Details

Vitamin C is an antioxidant that lightens, brightens, and tightens. It is recommended to use an antioxidant in the morning to help protect against free radicals and environmental assaults such as pollution, blue light from technology, and the sun.

Ingredient Options

Ingredient Name	Purpose
L-Ascorbate	Water soluble vitamin C; least stable
Tetrahexyldecyl Ascorbate (THD)	Fat soluble vitamin C, a derivative of l-ascorbate to make it more stable
Blends	Multiple antioxidants that have the combined effects of vitamin C

Sample Vitamin C Products

Least to most potent

Radiance Serum

L-Ascorbate

- Great for oily skin
- Has added skin lightening ingredients
- Similar to Phloretin serum from Skincuticals

CE Peptides
